

INTEGRATED BIM
SOLUTIONS

A one-stop shop for all critical project information

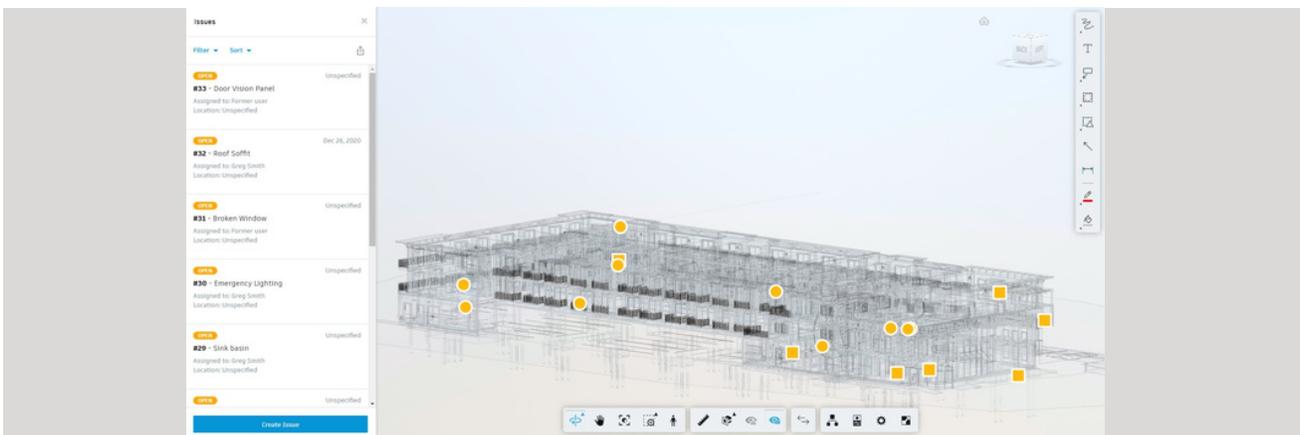

Implementing cutting-edge technology to save our clients time and money and deliver projects to the highest quality.

The Problem

Most large projects take 20% longer to finish than expected and are 80% over budget. We understand the complexity of the real estate industry and the communication breakdowns that occur between owners, design professionals and general contractors. Project teams have long needed a way to close the information gaps that plague the industry, paving the way for Building Information Modeling (BIM) to take hold.

The Solution

Our Integrated BIM Solutions extend traditional BIM by providing a central location for project resources. Our solutions focus on all aspects of the project life cycle, from concept to design, through approvals and bidding to construction and handoff. By integrating best-in-class technology with standard construction data, we provide a customized platform that delivers real-time data while providing a one-stop shop for all critical project information.

The platform features:

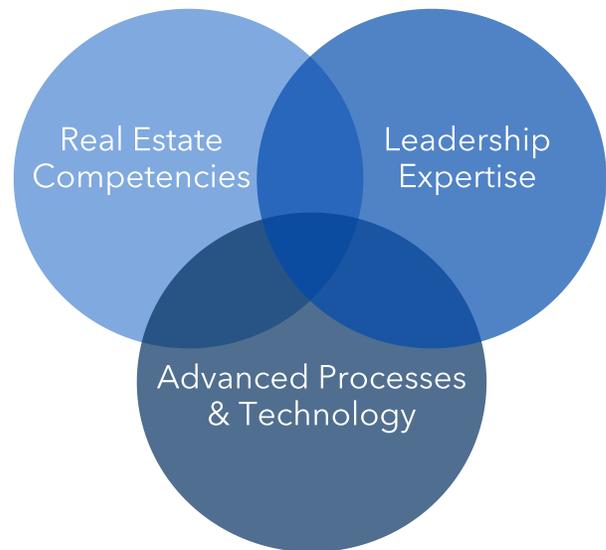

- 3D models and 2D plans
- Project schedule
- Work in progress, completed and delayed
- Document management
- Issue tracking
- Field management
- Asset management
- Clash detection
- Budget trends

Our Services

- Platform Creation & Integration - We will create and integrate a customized project platform that hosts a suite of BIM technologies and gather project data from all stakeholders to integrate into the platform.
- Platform Training - Our team will set up training sessions for critical team members.
- Platform Management - We will update the platform as needed; manage data on a daily basis from all stakeholders; create and distribute project reporting; and issue alerts to all stakeholders.

Bringing Value to Every Project

- ✓ Blending our real estate knowledge with our leadership excellence to provide our clients with an unprecedented level of expertise and peace of mind
- ✓ Communicating with confidence to all parties involved, due to our extensive experience in all aspects of the development process
- ✓ Keeping projects on schedule and on budget through finely tuned planning, management and problem-solving skills
- ✓ Implementing a multifaceted approach to quickly and efficiently respond to challenges
- ✓ Combining an advanced feasibility methodology with cutting-edge technology to ensure project success

About Us

Established in 2003, Nally Ventures is an entrepreneurial company founded by Mike Nally, a real estate developer and proven leadership coach. We are a results-oriented business committed to providing solutions in order to take organizations and projects to the next level. We provide an array of services that transform executives into world-class leaders, produce a new generation of highly effective managers and team members, and navigate the maze of real estate development. At Nally Ventures, we take tremendous pride in being a team our clients can trust, respect and rely on to foster new growth for their businesses.
