

Building-in value for operational readiness

Managing a building is no small task. Building systems grow more complex, technologically advanced and interconnected every day. We take away the unknown and increase your team's effectiveness by integrating customized IT solutions throughout the life cycle of the project, with facility management at the forefront.

Transparent Data Management

Implementing a digital twin throughout the life of a project, even from the early stages of design, accelerates operational readiness and enables long-term operating effectiveness and efficiency. Here are the key benefits of utilizing digital twin:

Reduce Costs

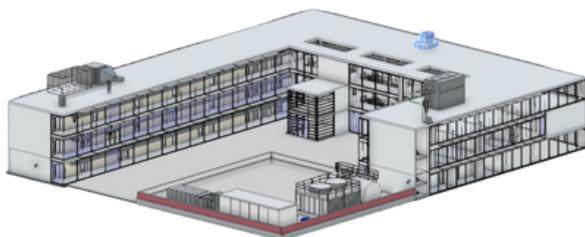

Save Time

Modernize

Protect Investments

Design

We identify the desired operational needs and goals of our clients and gather the appropriate data to begin the creation of the digital twin during the design process.

Construction

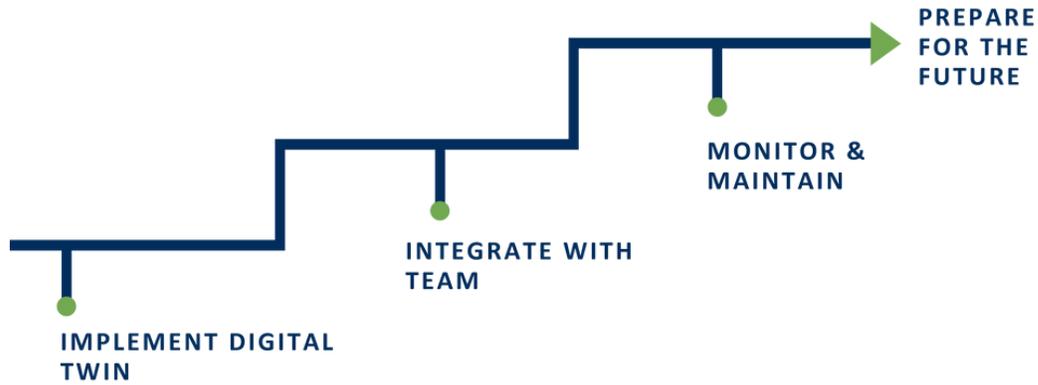

We coordinate with the construction team to collect and validate the necessary data needed to construct a digital twin for operations.

Operations

We implement digital twins of new and existing buildings for operations teams. With the information from a digital twin, operators can extend equipment life, maximize staff productivity, reduce unnecessary maintenance expenses, prepare for the next phase of their building, and more.

Our Services

With 30 years of experience, we blend our real estate knowledge with our leadership excellence and advanced process and technology to deliver solutions that exceed client's expectations. Our digital twin solution uses the latest AEC software to help you streamline, coordinate and improve operations and maintenance—whether you have one facility or many. Our process includes:

Why Digital Twin?

The proportion of data that goes unused in engineering and construction.

Source: Big Data

Run to fail or repair costs between 3 and 10 x as much as a good maintenance program.

About Us

Established in 2003, Nally Ventures is an entrepreneurial company founded by Mike Nally, a real estate developer and proven leadership coach. We are a results-oriented business committed to providing solutions in order to take organizations and projects to the next level. We provide an array of services that transform executives into world-class leaders, produce a new generation of highly effective managers and team members, and navigate the maze of real estate development. At Nally Ventures, we take tremendous pride in being a team our clients can trust, respect and rely on to foster new growth for their businesses.
